

## **Perinatal Surveillance Data Manager**

Acadiana Cares, in conjunction with the Louisiana Office of Public Health STD/HIV/Hepatitis Program (SHHP), seeks a full-time, skilled, data manager to conduct data management activities for perinatal HIV and congenital syphilis data reported to the state. Duties include: 1) management of perinatal surveillance data, 2) quality assurance, 3) data mining for missing variables, 4) collaboration and communication with SHHP staff relating to perinatal HIV and congenital syphilis 5) meeting coordination and 6) minimal data analysis and production of reports. Some local and statewide travel may be required.

### **Required Education and Experience:**

Bachelor's Degree in Public Health or related field with at least two years of experience required (Master's in Public Health or related field a plus) with demonstrated experience in using data management systems and statistical analysis software such as Access, Excel, or SAS. Eligible candidates must have a general knowledge of the transmission of communicable diseases and social determinants of health as they relate to and impact health outcomes. Experience in maternal and child health and ability to read and understand diagnostic laboratory results is preferred but not required.

To apply for this position, send cover letter, resume and three professional references to: SHP\_Resumes@la.gov. Must Reference: Perinatal Surveillance Data Manager. EOE/AA Employer.
