Public Health Analyst

Southeast La. Area Health Education center (SELAHEC), in conjunction with the Louisiana Office of Public Health STD/HIV/Hepatitis Program, is seeking applicants for a Public Health Analyst position based in New Orleans, LA. This position is responsible for conducting data analysis projects using data from the HIV/STD/Hepatitis surveillance, prevention, regional operations, and services programs. Some local and statewide travel required. Responsibilities include: analyze/manage program data, link datasets, monitor data quality, respond to data requests, enhance data sharing, generate reports, assist with grants.

**Qualifications:** Master’s degree in public health, statistics, or closely related field. Master’s of public health in epidemiology/biostatistics, background in HIV/STI/viral hepatitis, and knowledge of SAS preferred. Minimum of three years of relevant professional experience preferred. Superior verbal and written communication skills and demonstrated ability to collaborate with colleagues and clients of diverse races, ethnicities, religious affiliations/beliefs, genders and sexual orientations required.

Send cover letter, resume and three professional references to: SHP_Resumes@la.gov. **Must reference:** Public Health Analyst in subject line.
